– Acquired hands-on experience in creating and maintaining websites, which has significantly strengthened my technical skills. Enhanced proficiency in HTML, CSS, and JavaScript through practical application in various projects.

PERSONAL PROJECTS

• T20 world cup cricket data analytics [Python | Web scrapping | Pandas | Power BI]
Cricket Analysis

– Created a Power BI report to identify top 11 players for a T20 cricket team by scraping data from espncricinfo with a Brightdata website tool, cleaning and transforming the data with pandas, and evaluating various player performance metrics.

– Used the resulting Power BI dashboard to select players for various categories (openers, middle order/anchors, finishers, all-rounders, specialist fast bowlers) and ultimately choose the top 11 players to play in the match.

– Selected team using the Power BI dashboard has 90% of chances to win the game.

• Text to Speech Converter
It allows users to input text and converts it into spoken words in real-time

– Tools & technologies used: HTML,CSS,Java Script
– Leveraged external APIs to convert text input into spoken words, enhancing accessibility and user engagement.

• Low Code Development Using MENDIX Platform
Cross-platform applications using Mendix

– Developed Mobile, Desktop, and Tablet applications using Mendix's drag-and-drop, model-driven approach, enabling rapid creation of complex apps with minimal coding. Implemented real-time data syncing and user-friendly interfaces for seamless cross-device performance
